

Laborfittings LHP – Laboratory fittings LHP – Raccords de laboratoire LHP

Werkstoffe: 1.4571 / 1.4435 Materials: AISI 316Ti/316L

2000 bar 29 000 PSI

Vorteile und Eigenschaften

- Fitting-Körper aus kaltverfestigtem, austenitischem, rostfreiem Stahl W.-Nr. 1.4571 und 1.4435 für grösste Korrosionsbeständigkeit und Verschleissfestigkeit im Dichtkonus.
- Gas- und flüssigkeitsdicht unter extremen Bedingungen.
- HD-Kapillarrohr AØ 1/8" (3.2 mm) oder AØ 1/16" (1.6 mm).
- Hochdruckrohranschlüsse mittels Klemmringsen.
- Alle Fittings mit Druckschrauben und Klemmringsen.
- Entlastungsbohrungen an den Rohranschlüssen.

Optionen

- Fittings mit mediumberührten Teilen in korrosionsbeständigen Werkstoffen wie Hastelloy, Titan usw.
- Befestigungsbohrungen im Körper.
- Werkstoffzeugnisse auf Anfrage.

Avantages et caractéristiques

- Corps en acier inoxydable austénitique écroui 1.4571 et 1.4435 assure une résistance optimale à la corrosion et à l'usure dans les cônes.
- Pour liquides et gaz à conditions de service extrêmes.
- Tubes capillaires Ø ext. 1/8" (3.2 mm) ou 1/16" (1.6 mm).
- Raccordements haute pression par olive sertie.
- Tous les raccords sont équipés de vis et d'olives.
- Orifices de détection de fuites sur les raccords.

Options

- Raccords en matériaux résistants à la corrosion comme le Hastelloy, titane, etc.
- Trous de fixation.
- Certificats de matériau sur demande.

Features and advantages

- Body in cold-drawn austenitic stainless steel AISI 316Ti and 316L for high corrosion resistance and wear resistance in the cones.
- Liquid- and gas-tight under extreme working conditions.
- For capillary tubing OD 1/8" (3.2 mm) and OD 1/16" (1.6 mm).
- Compressed ferrule type high-pressure connections.
- All fittings equipped with corresponding ferrules and gland nuts.
- Weep holes on all tubing connections.

Options

- Fittings with special inserts, with all wetted parts in corrosion-resistant materials like Hastelloy, titanium, etc.
- Fittings with assembly holes.
- Material certificates on request.

Winkelstücke – Elbows – Raccords angle droit

**Erstmontage**

Bitte unbedingt Anschlussvorschrift
OR 03.01 beachten!

Sollte diese unserer Lieferung nicht bei-
liegen, bitte anfordern.

Wir empfehlen die Verwendung eines
Vorformwerkzeugs Art.-Nr. 770.9038.

Montage initial

Impérativement respectez la directive
de montage **OR 03.01!**

En cas de non-réception veuillez la
demander s'il vous plaît.

Nous recommandons l'usage d'un **outil
de préformage numéro d'article 770.9038.**

Initial assembly

It is imperative to follow the assembly
instructions **OR 03.01!**

Should this assembly instruction not have
been part of the delivery please ask for it.

We recommend the use of a **pre-forming
tool Part No. 770.9038.**
